

Forecast For West Midlands
Issued by Met Office Exeter
at 0400 on Saturday 02 Oct 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Unsettled with outbreaks of rain and a gusty wind.

Today:
Any early brightness will quickly fade as thickening cloud brings showery outbreaks of rain into the region from the southwest during the morning. Outbreaks of more persistent rain are likely during the afternoon. Cool and blustery, although winds easing later. Maximum temperature 13 deg C (55 deg F).

Tonight:
Rain soon easing this evening and cloud breaking to leave a mainly dry night with clear spells. The odd shower moving in from the west. Winds increasing again by dawn. Minimum temperature 5 deg C (41 deg F).

Sunday:
Mostly dry for a while during the morning with some sunny spells. However, cloud bubbling up to give a mix of sunshine and blustery showers heading into the afternoon. Maximum temperature 15 deg C (59 deg F).

Outlook for Monday to Wednesday:
Monday will bring sunny spells, scattered showers and a cooling breeze. Some wet and windy weather is likely on Tuesday, ahead of a mostly fine day on Wednesday.
